## **Σnnagram at the forefront in vegetal extraction**

Ennagram has more than fourteen years of experience in research, development and production of natural extracts . The most advanced technology is applied to extracting the active ingredients of herbal and marine raw materials.

Our plant is located in the southeast of Paris near the main transportation routes

- **RAW MATERIALS**

To ensure optimal care of crops from planting to harvesting , Ennagram obtains raw materials from all over the world exclusively through selected farmers and suppliers. Ennagram strictly prohibits pesticides, heavy metals, aflatoxins and microbiological contamination in herbal and marine raw materials.

- **PLANT (Extraction & Package)**

In each adjusted place (liquid extraction, dry extraction, specific extraction), Ennagram maintains professional knowledge and experience in the preparation of natural extracts with its own technology and know how. Ennagram carries out specific and exclusive extractions on request

- **QUALITY CONTROL**

Ennagram applies chemical, physical and microbiological control at each step of the production process, from raw material to finished natural extract.

# HIGH-TECHNOLOGY BOTANICAL ACTIVES

## **CENNAMIDES** (exclusivity of Ennagram)

*Vegetal Ceramides*

An exclusive and patented association of phytosphingolipids (ceramides) and digalactosyl-diglycerides (Dgdg) extracted from wheat.

- Moisturising
- Regenerating
- Healing
- Anti-elastase and anti-collagenase
- Anti-radicals

### **3 available references :**

- ⇒ Wheat lipids at 15 % Ceramides
- ⇒ Water-dispersible powder at 50 % Ceramides
- ⇒ Water-soluble emulsion at 5 %

## **ADENNA**

*Vegetal DNA*

A solution of DNA (desoxyribonucleic acid) extracted from wheat germs and intended for the care of dry, damaged or mature skin and hair.

- Moisturising
- Regenerating
- Anti-ageing (Anti-elastase)
- Anti-radicals

## **HIGH-TECHNOLOGY BOTANICAL ACTIVES**

### **AVENNA MP25**

Oat extract with high beta-glucan content (25%)

- Moisturising, soothing, wound healing

### **THALASSENNNA**

A micro-algae (*Thalassiosira pseudonana*) extract with high selenium content (25 - 40 µg/l)

- Anti-oxidant (anti-radicals), acts against lipid peroxidation

### **TENSENNA**

A complex of proteins (albumin and globulin) extracted from wheat gluten

- Tensor, moisturising, soothing, protective (anti-radicals), anti-ageing

### **SOYENNA**

*Vegetal FILATOV extract*

An all-vegetal active ingredient issued from embryonic tissues of soya (soybean) and prepared according to enzymatic and molecular selection techniques (Filatov extraction). With a valuable content in amino-acids, peptides and trace-elements, SOYENNA has a double cosmetic interest :

it boosts the skin and hair metabolism and provides essential nutriments.

- Moisturising
- Nourishing
- Revitalising

## **HIGH-TECHNOLOGY BOTANICAL ACTIVES**

### **TURN WHITE COMPLEX**

*Herbal skin-lightening agent*

A unique botanical ingredient with proven skin whitening and perfecting activity. The TURN WHITE COMPLEX, by suppressing the pigmentation of the skin, reduces the brown coloration, prevents the formation of freckles, birthmarks and senile keratosis, and can be used with good effects to whiten dark skin or areas of dark skin.

The TURN WHITE COMPLEX is also an effective answer for lightening ethnic skin.

- Skin-lightening, rejuvenating, suppresses pigmentations

### **KIGELIA EXTRACT**

An extract of *Kigelia africana* fruits which contains interesting amounts of steroidal saponins and flavonoids.

- Bust and breast firming and uplifting

### **CAPSINE**

An oil-soluble extract of capsicum fruits with a content of 10 % capsaicin

- Warming, analgesic, circulatory

Also available: CAPSINE WS, a water-soluble extract with 1.5 % capsaicin.

## ***HIGH-TECHNOLOGY BOTANICAL ACTIVES***

### **ENN'ACTIVE GRAPE SEED**

A water-soluble liquid extract of grape seeds with a content of 0.5 % procyanidins.

- Strong antioxidant
- Improves blood circulation
- Stimulates hair growth

### **ENN'ACTIVE GARCINIA**

A water-soluble powder extract of garcinia cambogia fruit rinds with a content of 60 % hydroxycitric acid.

- Fat burning
- Fat blocking
- Moisturizing and regenerating

### **ENN'ACTIVE PAPAYA**

A water-soluble powder extract of papaya fruits and stems with a content of 5 % papain

- Cleansing and wound-healing
- Enzymatic exfoliation

## ***HIGH-TECHNOLOGY BOTANICAL ACTIVES***

### **ENN'ACTIVE CHAMOMILE**

A water-soluble powder extract of chamomile flowers with a content of 0.3 % apigenin

- Soothing, purifying, Blond hair bleaching

### **ENN'ACTIVE PINEAPPLE**

A water-soluble powder extract of pineapple fruits and stems with a content of 10 % bromelain

- Cleansing, Enzymatic exfoliation

### **ENN'ACTIVE GINSENG**

A water-soluble powder extract of ginseng roots with a content of 4 % ginsenosids

- Boosting, Toning

### **ENN'ACTIVE APPLE**

A water-soluble liquid extract of apple fruits with a content of 0.5 % polyphenols

- Anti-oxidant

# ENNACOMPLEXES

## Botanical Complexes

ENNACOMPLEXES are blends of liquid (hydroglycolic) botanical extracts selected on the basis of their synergistic dermo-cosmetic activity. Their quality is guaranteed by the identification of active ingredients.

### Skin Care

#### ENNACOMPLEX 261

**ANTI-CONGESTIVE (ANTI-REDDENING / ANTI-BLOTCHINESS)**

Mixed extract of red vine, St John's wort, arnica, witch hazel, horse chestnut, and ivy  
*Tonic, astringent, vasoconstrictor, stimulates and regulates the micro-blood circulation*

#### ENNACOMPLEX 262

**SOFTENING (SENSITIVE SKIN)**

Mixed extract of marigold, roman chamomile, linden, cornflower, German chamomile, and St John's wort  
*Anti-inflammatory, desensitising, relaxing, softening*

#### ENNACOMPLEX 263

**ANTIWRINKLE**

Mixed extract of hops, rosemary, horsetail, pine, and lemon  
*Softening, antiseptic, toning, anti-ageing  
stimulates micro-blood circulation, clears the complexion*

#### ENNACOMPLEX 264

**OILY SKIN**

Mixed extract of watercress, burdock, sage, lemon, ivy, and soapwort  
*Antiseptic, antipruritic, astringent, vasoconstrictor, decongestive*

#### ENNACOMPLEX 266

**MOISTURISING**

Mixed extract of mallow, ivy, pellitory, cucumber, elder, and arnica  
*Emollient, soothing, itch-relieving, refreshing*

# **ENNACOMPLEXES**

## ***Botanical Complexes***

### **ENNACOMPLEX 267**

#### ***YOUNG SKIN NORMALIZER***

Mixed extract of burdock, lemon, hops, St John's wort, sage, marigold, and soapwort  
*Antiseptic, antiinflammatory, decongestive, balancing, healing*

### **ENNACOMPLEX 273**

#### ***ASTRINGENT***

Mixed extract of Rose flower, Hamamelis leaf, Oak bark, and Apple leaf  
*Astringent, antipruriginous, antiinflammatory, antiseptic, anti-seborrheic*  
*Tightens open pores, reduces sebaceous secretions, heals small cuts and blemishes*

### **ENNACOMPLEX 271**

#### ***EYELID TONE***

Mixed extract of ladys mantle, ivy, horsetail, and chamomile  
*Restores the elasticity, astringent, soothing, improves the microcirculation*

### **ENNACOMPLEX 231**

#### ***EYE CONTOUR***

Mixed extract of horsetail, witch hazel, licorice, ginseng, and ginkgo biloba  
*Restructuring, soothing, toning, anti-puffiness, anti-dark circles, antiageing, protective*

### **ENNACOMPLEX 274**

#### ***MARINE***

Mixed extract of fresh brown seaweeds: laminaria, fucus, himanthalia, ascophyllum, giant kelp, and wakame

*Toning, revitalizing, moisturizing, highly nutritive*

# ENNACOMPLEXES

## Botanical Complexes

### Body Care

#### ENNACOMPLEX 265

##### SLIMMING

Mixed extract of ivy, fucus, queen meadow, clematis, and horsetail  
*Anti-cellulite, draining, microcirculatory, astringent, toning, firming, restructuring effect*

#### ENNACOMPLEX 268

##### CONNECTIVE TISSUE RESTORER

Mixed extract of horsetail, ivy, tormentil, and centella  
*Restores the connective tissue in case of stretch marks, wrinkles, skin ageing, eye pouches*

#### ENNACOMPLEX 269

##### CONGESTED LEGS (« HEAVY LEGS »)

Mixed extract of red vine, butcher's broom, pine, and witch hazel  
*Improves blood circulation toning, antiinflammatory, protective*

#### ENNACOMPLEX 270

##### RHEUMATISM

Mixed extract of harpagophytum and juniper  
*Analgesic, antiinflammatory, antirheumatic*

#### ENNACOMPLEX 212

##### BUST FIRMING

Mixed extract of sage, olive leaf, ginseng, lady's mantle, and wild thyme  
*Firms and tones the bust*

# **ENNACOMPLEXES**

## ***Botanical Complexes***

### **Hair Care**

#### **ENNACOMPLEX 260**

##### ***HAIR TREATMENT***

Mixed extract of white nettle, pine, burdock, chamomile, rosemary, ivy, arnica, watercress, and garlic

*Stimulates the activity of hair roots, stimulates hair growth, controls dandruff, eczema and seborrhoea*

### **Baby Skin Care**

#### **ENNACOMPLEX 234**

##### ***BABY SKIN***

Mixed extract of carrot, marigold, and chamomile

*Moisturising, softening, nourishing, purifying*

### **Oily Basis**

#### **MOISTURISING AND SOOTHING OIL**

Mixed infusion in sunflower seed oil of marigold, linden, mallow, St John's wort, elder, and arnica .

*Provides extra moisture and emolliency in addition to the soothing properties of the mixed botanicals*

# **ENNACTIVES**

## ***Titrated Botanical Complexes***

This new generation of complexes offers titrated (quantified) amounts of active constituents, and thus a consistent activity.

### **ENNACTIVE 203**

#### ***SLIMMING***

Mixed extract of tea, fucus, grapefruit, meadowsweet, horsetail, ivy, and clematis

Dosed in caffeine and naringin

*Anti-cellulite, lipolytique*

*Anti-cellulite, lipolytic, toning, firming, restructuring*

### **ENNACTIVE 205**

#### ***BODY SHAPING***

Mixed extract of hibiscus and garcinia cambogia

Dosed in hydroxycitric acid

*Blocks and burns the fatty accumulations*

*Stimulating, regenerating, moisturising*

# **FRUIT AND FLOWER ACIDS**

## **AHA and BHA Derived Extracts**

### **AHA EXTRACT**

*Mixed fruit extract*

An exclusive fresh fruits extract with a natural content (5 % min.) of alpha-hydroxy-acids. Apricot, Strawberry, Raspberry, Guava, Mango, Grapefruit, Peach and Passion fruit have been chosen, as a source of Glycolic, Lactic, Citric and Mandelic acids.

- Moisturising, Soothing, Purifying
- Improves hair texture

### **AHA EXTRACT 44**

*Mixed fruit extract with 44% AHAs*

Mix of fresh fruits extracts (Lemon, Bilberry, Apple, Sugar cane & Grape) plus a blend of alphahydroxy-acids (Citric, Lactic, Glycolic and Tartaric) to reach 44%.

- Moisturising and soothing
- Regenerating and antiageing
- Purifying, Complexion-clearing
- Peeling (at high doses)
- Improves hair texture

### **MIXED FLOWER EXTRACT**

*26% flower acids*

An extract of 3 flowers (hibiscus, dog rose and sweet violet) naturally rich in organic acids (citric, salicylic, ascorbic, malic and tartaric), with a complement to reach a standardised content of 26%.

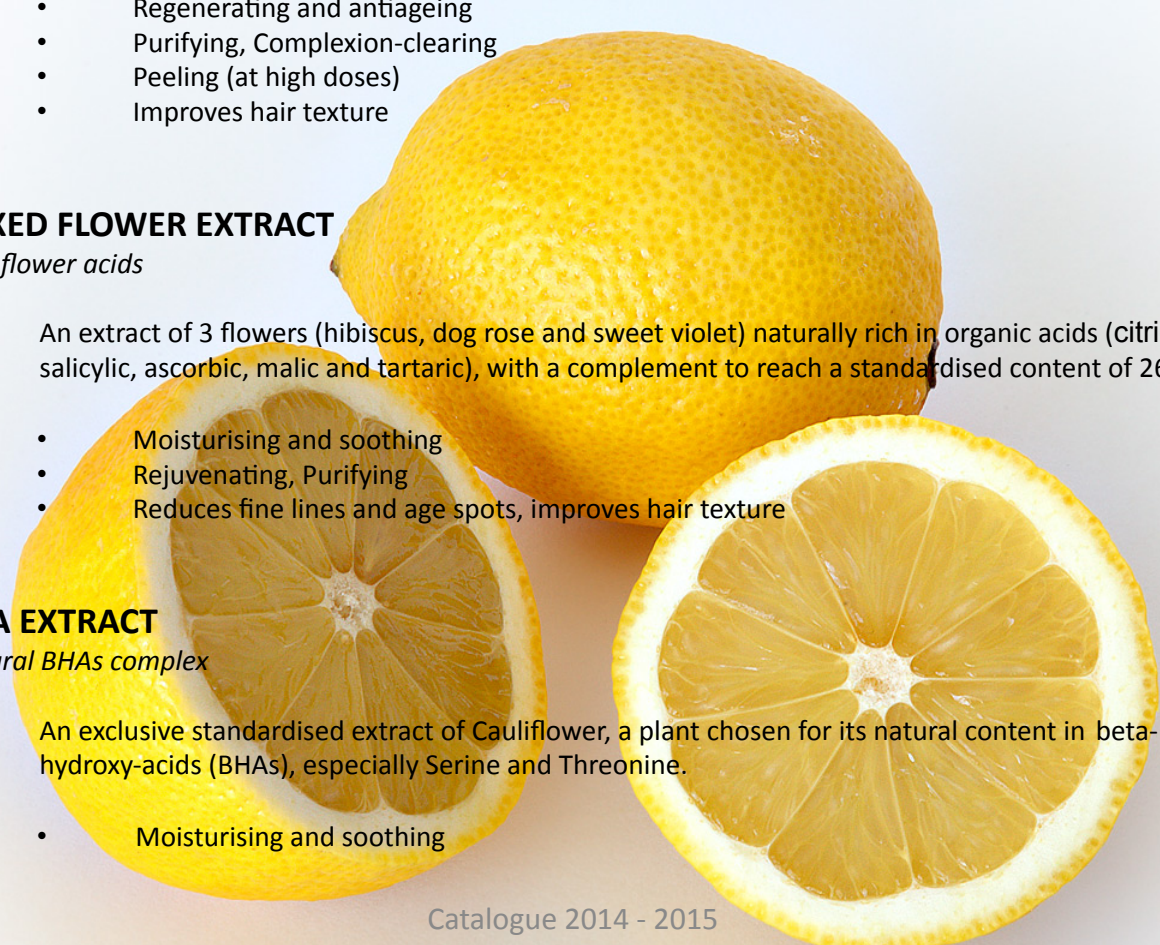

- Moisturising and soothing
- Rejuvenating, Purifying
- Reduces fine lines and age spots, improves hair texture

### **BHA EXTRACT**

*Natural BHAs complex*

An exclusive standardised extract of Cauliflower, a plant chosen for its natural content in beta-hydroxy-acids (BHAs), especially Serine and Threonine.

- Moisturising and soothing

## **VEGETAL SCRUB AGENTS**

Vegetal Scrub Agents, thanks to a mechanical exfoliation, help to eliminate dead cells, and stimulate the micro-blood circulation and cells renewal.

### **CITRUS EXFOLIATING POWDER**

Micronised and standardized powder of orange, grapefruit and lemon fibres, with big particles made especially for the body.

### **COTTON POWDER**

Micronised powder of pure cellulose made from cotton fibres.  
A very soft, non-aggressive scrub agent for delicate and sensitive skin types.

### **BAMBOO FIBRES POWDER**

Micronised powder of Bamboo fibres.  
A very soft, non-aggressive scrub agent for delicate and sensitive skin types.

### **CITROMAT**

A vegetal talc which associates a micro-smoothing effect to an oil absorbent effect: the fineness and regularity of the particles allow a very precise and non-aggressive exfoliation, and when they are in contact with the skin, they also act as a micro-blotting substance which can absorb the excess of sebum.

- Non-aggressive
- Eliminate dead cells
- Stimulate cells renewal
- Smooth the skin
- Absorb the excess of sebum

## ***NATURAL CLAYS***

### **GREEN CLAY**

An illite type clay with purifying and complexion-clearing properties, dedicated to oily skin.

### **YELLOW CLAY**

An Illite-kaolinite type clay dedicated to normal or combination skin.

### **PINK CLAY**

A kaolinite type clay dedicated to sensitive or irritated skin.

### **RED CLAY**

A kaolinite type clay dedicated to normal but irritated skin.

### **WHITE CLAY**

A kaolin type clay dedicated to dry or dehydrated skin

## ***NATURAL BODY WRAPS***

### **ALGAE GEL**

A ready-to-use spa product especially designed for revitalizing, detoxifying, and slimming treatments for the body. Thanks to its exclusive texture, it is very easy to use, no wet room is required.

# MARINE ACTIVES

## COLLAGENNA

*Marine native collagen*

Solution of soluble type I native collagen extracted from fish skin.

- Moisturising
- Maintains elasticity and firmness of the skin
- Conditions and protects the hair

=> Powder measured at 44% collagen

=> Aqueous solution measured in 0.6 % collagen

## COLLAGENNA H

*Hydrolysed marine collagen*

Solution of hydrolysed collagen extracted from fish skin.

- Moisturising
- Nourishing
- Film-forming

## ELASTENNA

*High MW marine elastin*

Aqueous solution with 2,5 % elastin extracted from fish skin.

- Moisturising & Tensor

## ENNAPEPTID M

*Marine peptidic extract*

A solution of peptides extracted from fresh fish

- Regenerating, stimulates cells multiplication
- Immuno-stimulant

## **MARINE ACTIVES**

### **ENNAPURE CS**

*Marine oligosaccharide*

A solution of chondroitin sulphate extracted from fish cartilage

- Highly moisturizing
- Film-forming, restructuring

### **CAVIAR EXTRACT**

A solution of pure caviar extractives obtained from certified sturgeon eggs

- Rich in precious and nutritive substances. Gives a luxurious and greedy touch

### **GLYCOSENNNA**

*Depolymerised marine oligosaccharide*

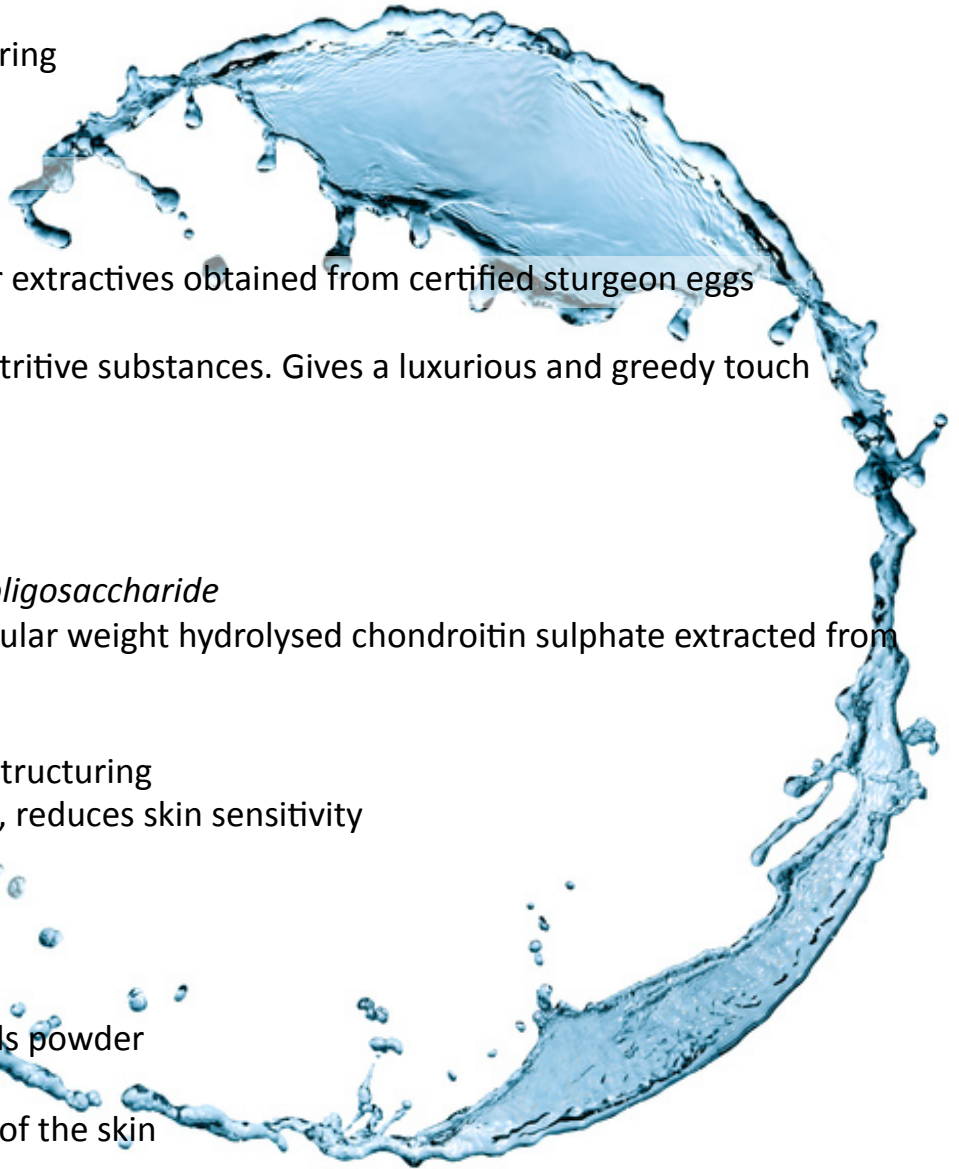

A solution of low molecular weight hydrolysed chondroitin sulphate extracted from fish cartilage

- Highly moisturizing, restructuring
- Stimulates cells growth, reduces skin sensitivity

### **PEARL POWDER**

A micronised pearl shells powder

- Improves the elasticity of the skin
- Anti-ageing
- Softening

## **VITAMIN DERIVATIVES**

### **VITENNA COS VCE**

*Purified Ethyl Ascorbic Acid*

A new vitamin C derivative, very stable, very effective.

- Anti-oxidant
- Promotes the synthesis of collagen
- Whitening, suppresses melanin
- Anti-inflammatory

### **INOXAN 583**

*Vitamin-based antioxidant*

A mix of ascorbyl palmitate and dl-alpha-tocopherol to be used as antioxidant for any oil-based products.

# MICROEMULSIONS

Microemulsions are unique water-dispersible delivery systems. This technology gives thermodynamically stable systems made of droplets of less than 100 nm and offers the possibility to incorporate vitamins directly in aqueous or hydroalcoholic liquid products, or in emulsions with continuous water phase. These microemulsions also increase the biodisponibility of vitamins inside of the intracellular medium .

## MICROEMULSION A

A water-soluble microemulsion with high vitamin A content.

- Stimulates cells growth
- Acts against skin ageing
- Smoothes wrinkles
- Helps to repair injured skin
- Improves the contour of dry scaly skin
- Reduces harmful effects from UV exposure
- Improves the complexion

## MICROEMULSION E

A water-soluble microemulsion with high vitamin E content.

- Limits skin ageing
- Moisturising
- Antiinflammatory
- Protects against UV damage
- Improves blood circulation
- Promotes hair growth

## WATER-SOLUBLE LIQUID EXTRACTS

phytogreen

Ennagram offers an extensive range of the finest liquid botanical extracts made with plants, herbs, fruits and seaweed coming from all over the world and intended to be used in practically all cosmetic products.

These extracts are normally available in a hydroglycolic (water and propyleneglycol) base, but also offered in water and butyleneglycol (ref HB), or water and glycerine (ref HGL), water and ethanol (ref. TINC), propyleneglycol only (ref. G), butyleneglycol only (ref. B), glycerine only (ref. GLY).

Preservative-free extracts are available on request, as well as decolorized extracts, and when possible we suit individual requirements.

We use 1 kg of fresh plant (or its dry equivalent) to obtain 1 kg of extract but less concentrated, cost-effective extracts are also available.

All extracts are made by the cold-process to preserve the integrity and activity of each ingredient, and whenever possible organically grown plants are used.

Our exclusive manufacturing process allows to extract all the active fractions of the plants : vitamins, tannins, flavonoids, amino-acids, trace elements, minerals, essential oils ...

All extracts also conform to quality standards. Quality control includes organoleptic characterisation, physical-chemical measurements (density, pH, refractive index), active matter determination (by TLC and/or HPLC) and microbial count.

## CHINESE & JAPANESE PLANTS EXTRACTS

In addition to ginseng, fennel, ginkgo or ginger, ENNAGRAM also offers a selection of very specific extracts made with herbs traditionally used by the Chinese and Japanese folk medicines.

- Tsao Ko (*Amomum Aromaticum*) CE601  
*Anti-bacterial - toning*
- Bai Qi (*Bletia Hyacinthina*) CE602  
*Emollient - soothing*
- BiaoBeng Li (*Rubus Chingii*) CE603  
*Protects against free radicals  
stimulates micro-circulation  
promotes hair growth*
- Ho Shou Wu (*Polygonum Multiflorum*) CE604  
*Moisturising - astringent*
- Hua Jiao (*Xanthoxylum Alatum*) CE605  
*Astringent - anticongestive - toning*
- Lung Xu Cai (*Laminaria Japonica*) CE608  
*Moisturising - antiinflammatory*
- Nu Chen (*Ligustrum Lucidum*) CE609  
*Toning - stimulates micro-circulation*
- Po Zhu Lin Hua (*Nelumbium Nelumbo*) CE610  
*Moisturising - toning*
- Tan Shen (*Salvia Miltiorrhiza*) CE611  
*Stimulating*
- Xin Yi (*Magnolia Liliflora*) CE612  
*Astringent  
regulates greasy skin and hair*
- Pi Pa (*Eriobotrya Japonica*) CE614  
*Healing - soothing - moisturising*
- Da Zao (*Zizyphus Jujuba*) CE630  
*Emollient - astringent  
toning - purifying*

## SEAWEEDS & MARINE PLANTS EXTRACTS

- **Spiruline** ME013  
*Regenerates and nourishes the skin*
- **Ulva** ME010  
*Regenerates and nourishes the skin*
- **Wakame** ME011  
*Protects and stimulates hair and scalp*

## ***TINCTURES, MOTHER TINCTURES & FLUID EXTRACTS (PHARMACEUTICAL GRADE)***

Tinctures, Mother Tinctures and Fluid Extracts are alcohol (ethanol)-based extracts prepared according to the French or European Pharmacopoeia and by the cold-process to preserve the integrity of active ingredients. For Mother Tinctures we can also manufacture following the requirements of the German Homeopathic Pharmacopoeia.

The plant/extract ratio is generally 1/5 for the Tinctures, 1/10 for the Mother Tinctures and 1/1 for the Fluid Extracts. We are using dried plants for the Tinctures, Fluid Extracts and fresh plants for the Mother Tinctures. The final alcoholic titer is generally 60° for the Tinctures and Mother Tinctures and 40° for the Fluid Extracts.

## ***OILY EXTRACTS (MACERATES)***

Oily Extracts are oil-soluble extracts of plants made with refined sunflower seed oil as the solvent. These extracts are made at a controlled temperature and contain some of the oil-soluble and aromatic fractions of the plants.

## **VEGETABLE OILS**

<b>Nom</b>	<b>Ref.</b>	<b>Nom</b>	<b>Ref.</b>
Apricot kernel	HV167	Jojoba	HV164

India poon (Calophyllum)	HV170		

## ***DISTILLED WATERS***

*Raphel-Carbonel*

Maison Fondée en 1881

Distilled Waters are obtained by water-steam distillation at 100°C. They contain the aromatic fraction and some of the water-soluble components of the plants.

They facilitate the formulation of transparent and colourless products. They also allow to perfume your toning waters naturally.
