

## FRAME FORMULATION

# TOTAROL™ ROSACEA BALM

For a homogeneous complexion, without blemishes, and extreme comfort, whether it is a matter of flushing or rosacea, it is now possible to keep inflammation and redness under control on a daily basis thanks to this balm with a rich, non-sticky texture. Enriched with Totarol™ to balance the microbiome and REDYLESS®, an active ingredient with a unique mechanism acting upstream and downstream of neuronal inflammation and redness.

*Disclaimer: The above frame formulation is only a proposed suggestion on usage of Totarol™ for topical skincare use. The end user must determine the suitability of use, stability and performance of the Frame Formulation and accepts any and all liability that use of this Frame Formulation may confer.*
