Purifying Cleansing Oil

Cleaning with oil instead of water? YES, the double cleansing method gently removes excess sebum and stubborn dirt or make-up residues - for a healthy, radiant complexion.

The two-phase method has its origins in Korean skincare, which is known to be a pioneer and innovator in beauty. How does it work? This technique involves using two different cleansing products one after the other. It is assumed that the first step removes all residues from the skin and the second step really cleanses the skin down to the pores.

Natural Origin Index: 100.0 %

Phase	Ingredients	%
A	MCT Oil	36.7
	<i>Caprylic/ Capric Triglyceride</i>	
	Safflower Oil ¹	25.0
	<i>Carthamus Tinctorius (Safflower) Seed Oil</i>	
	Evicare® emolight	18.5
	<i>Isoamyl Laurate</i>	
	Sunflower Oil	10.0
	<i>Helianthus Annus Seed Oil</i>	
	Evicare® GOC	5.0
	<i>Glyceryl Oleate Citrate</i>	
	Evicare® TEC	2.0
	<i>Triethyl Citrate</i>	
	Evicare® deo	2.0
	<i>Polyglyceryl-2 Caprate</i>

Soft Cleansing Balm

Balm-to-Oil-to-Milk

By using Evicare® emulgiza rich in this balm formulation, the combination with water creates an emulsion on the skin. The fusion of Evicare® polysolve 4C and Evicare® polysolve 10L helps to rinse away any dirt with its cleansing properties.

Thanks to our highlight emollient Evicare® emolight, the skin feels soft and clean after application.
