

SalSphere® Cellulite Eraser (SS CE)

A controlled release delivery system with natural, effective ingredients that visibly reduce the appearance of cellulite and firm the skin.

In typical skin care formulations, it is challenging to formulate with a variety of functional ingredients, due to stability issues and counteractivity. SS CE allows for maximum efficacy without causing a gritty texture or irritation.

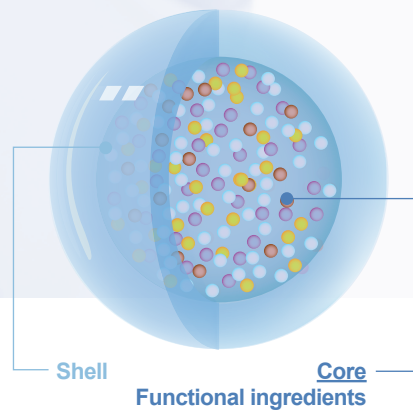

Figure 1: The sub-micron structure of SS CE.

SS CE raw

UNIQUE FEATURES

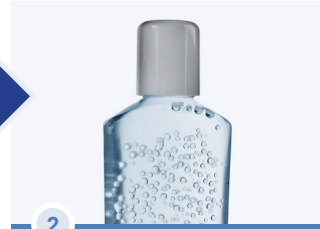

- 1 FAST AND EFFECTIVE**
Non-surgical cellulite solution that produces quick and noticeable results.
- 2 TARGETED DELIVERY**
Deliver functional ingredients directly to the deeper skin layers where they are needed most.
- 3 CREATE POTENT AND ELEGANT FORMULATIONS**
Since caffeine is protected in the encapsulation system, it is able to be used in a wider range of applications and at higher concentrations without any gritty textures.

HOW THE TECHNOLOGY HELPS YOU

SS CE is a sub-micron encapsulation system (Figure 1) engineered to deliver all-natural cellulite-fighting ingredients directly to your fat cells. SalSphere® technology modulates the release of these ingredients to allow for longer-lasting results.

1 Leave-on skin care product

2 Rinse-off skin care product

SalSphere® Cellulite Eraser (SS CE)

A controlled release delivery system with natural, effective ingredients that visibly reduce the appearance of cellulite and firm the skin.

FUNCTIONAL INGREDIENTS	SS CE combines some of the most effective cellulite-fighting and skin-toning ingredients.	
	Caffeine: Used to stimulate the breakdown of fat molecules and enhance blood circulation.	
	Conjugated linoleic acid: Effective for helping dimpled skin look smoother and firmer.	
	L-carnitine: Helps accelerate the process of fat oxidation.	
Rhodafiltrat palmaria (algae extract): Improves skin radiance and optimizes the efficacy of slimming agents through draining action.		
TECHNICAL DATA	Appearance @ 20°C	Opaque paste
	Applications	Leave-on and/or rinse-off skin care products
	Color	White
	Odor	Typical to ingredients
	pH (1 % solution)	4.0-6.0
	Shelf Life (months)	18
	Storage (°C)	Closed container at 12-32°
