

## **Evident Ingredients and Infinity Ingredients Partner for Specialties Supply in the UK**

The Germany based and newly founded raw materials supplier Evident Ingredients GmbH has entered into a cooperation with Infinity Ingredients for the distribution of its product line in the UK and Ireland. With a Management Team experienced in the development and marketing of specialty raw materials, Evident Ingredients' main focus is set on the natural protection of Personal Care products. With fresh ideas and a global network of sourcing partners, Evident Ingredients' mission is to offer natural and reliable multi-functionals for preservation and a range of sustainable raw materials such as robust and natural anti-oxidants, reliable emulsifiers and vegetable alternatives to silicone oils. Infinity Ingredients has introduced many natural raw materials concepts in the UK and pioneered the market for alternative preservation since its inception 7 years ago. The nationwide coverage of Infinity Ingredients will allow every UK and Irish customer in the personal care industry to benefit from the combined knowledge and experience of the two partners. Having the same energetic spirit, profound technical knowledge and dedication to customer support, the two companies are excited to enter into this partnership with effect from June 1<sup>st</sup> 2020.

### **About Evident Ingredients:**

Evident Ingredient is a new and yet experienced company. With the combined experience of 50 years as chemists, cosmetic scientists, raw material suppliers and entrepreneurs, the founders Fernando Ibarra, David Preusse Garcia and Martin Forster have a vast network of partners around the globe. Based in Hamburg, Germany, Evident Ingredients is located in the heart of Europe and at the second biggest harbour of the continent. This setting allows the innovative materials to be shipped around the world quickly and guarantees a seamless supply to all customers. The philosophy regarding product selection embraces a scientific approach to ensure maximum efficacy of all materials.
